To Whom It May Concern:

We were very pleased with the tax recovery services delivered by Utility Audit Company. They are knowledgeable, easy to work with, and best of all, required very little time involvement from my staff or myself.

UAC auditors worked through our vendors and the NY State Department of Taxation to receive the full refunds to which we were entitled. We recovered \$26,000 on telecom alone, which was a welcome addition to our current bottom line, not to mention the lowered expenses into the future.

As the economic downturn continues and hospital budgets are stretched tight, we appreciate having UAC help us make the most of our limited resources. Their risk free, contingency based fee was a "no brainer". I highly recommend Utility Audit Company's services to any non-profit interested in increasing its revenue while decreasing its expense.

Sincerely,

Lance Martucci
